SUPER.NATURAL.

PRODUCT CATALOG

authentic. handcrafted. bean-to-bar.

In true bean-to-bar form, HEXX uses cacao beans sourced from the best farms around the world and transforms them into craft chocolate showcasing the flavorful varieties of different regions and growers.

Unlike many other types of chocolate, HEXX dark chocolate is created from only two ingredients: cacao beans and organic palm sugar.

Even our milk chocolate is crafted the same way, with just a touch of organic milk and vanilla.

BRAND OVERVIEW

Handcrafted. Small batch. Artisian Chocolate.

Hexx is a small batch, single origin chocolate company that has committed itself to traveling the world to find the best beans to make the highest quality chocolate imaginable.

Chocolate made from the beans of different countries and regions have their own distinct flavors and unique tasting notes. Hexx treats these beans with great passion and care to intensify those natural flavors. Our chocolate should be enjoyed just like a fine wine, tasting and sensing those subtle nuances of flavors that the single origin offers.

Hexx chocolate is made from only two all-natural ingredients, the cocoa bean and organic coconut palm sugar. All of the dark chocolate produced by Hexx is above 70% Cocoa, which classifies it as a health food with the FDA.
